MESSAGE FROM THE COLLEGE DESK

Koshi College stands out today as a different seat of learning. The eight long years we spent working for this college were arduous. But those years were formative and preparatory. We have gained a greater ground now to work harder with a loftier vision.

With expanding physical structures of all wings of the college, we are placed in a better position to steer ahead. Our graduates have started to shine on career paths and have begun to work for the communities they are in. We have left no stone unturned to work out a system and the system has now begun to work effectively.

We are making a planned move into the days to come. Our focus is on the expansion of more wings, better physical infrastructures, better teaching-learning atmosphere and growing competitively. We know a wakeful move is necessary for an educational institution to make progresses. We are ready with the required spirit & vision.
